

AKAFLEX® KCL HT: Copper laminates on a polyimide-film backing for flexible printed circuits

The AKAFLEX® KCL HT programme

AKAFLEX KCL HT is available from KREMPEL as

- ✓ two-layer laminates and
- ✓ three-layer laminates.

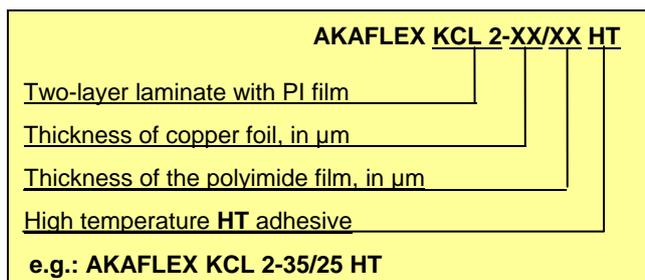

Polyimide film (PI) is used as the backing material for the copper. This is laminated with electrolytic (ED) copper foil on one or both sides. A modified epoxy system characterised by very good temperature stability has been developed for the HT product family. In combination with polyimide film, the bonding system used here reaches a temperature index per UL 796 of 150 °C. AKAFLEX KCL HT is **halogen-free** and meets the requirements of **UL 94V-0** for **flame retardance**. The material is compatible with all soldering processes and suitable for surface mounting techniques.

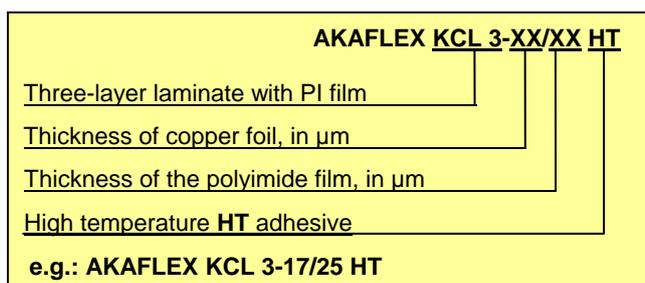

®

Standard types of AKAFLEX KCL HT

Designation for a two-layer laminate

Designation for a three-layer laminate

Standard type designation	Thickness of copper foil	Thickness of polyimide film
Two-layer laminates		
KCL 2- 5/25 HT*	5 µm	25 µm
KCL 2- 9/25 HT*	9 µm	25 µm
KCL 2-17/25 HT	17 µm	25 µm
KCL 2-17/50 HT	17 µm	50 µm
KCL 2-35/25 HT	35 µm	25 µm
KCL 2-35/50 HT	35 µm	50 µm
KCL 2-35/75 HT	35 µm	75 µm
KCL 2-35/125 HT*	35 µm	125 µm
KCL 2-70/25 HT*	70 µm	25 µm
KCL 2-70/50 HT*	70 µm	50 µm
Three-layer laminates		
KCL 3-17/25 HT	17 µm	25 µm
KCL 3-17/50 HT	17 µm	50 µm
KCL 3-35/25 HT	35 µm	25 µm
KCL 3-35/50 HT	35 µm	50 µm

Processing AKAFLEX® KCL HT

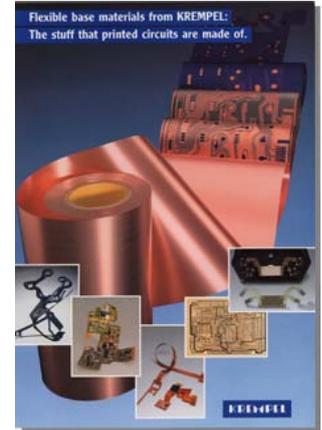

AKAFLEX KCL HT can be processed »reel to reel« by screen-printing or photolithography and the standard etching and cleaning techniques. The technical advantages in manufacturing are assured in this way.

A comprehensive range of **coverlays** for **mechanical protection** of the etched circuits is available from KREMPEL. Diverse **bonding films** are also available for manufacturing **multilayer** circuits.

We use modified **epoxy-resin adhesives** only. This means that no special plasma treatment is necessary in the manufacture of flexible multilayer circuits.

Quality assurance

All AKAFLEX products are subject to the procedures of on-going quality control as defined in the Quality Assurance Handbook of August Krempel Soehne. This quality assurance system is certified as meeting the requirements of ISO 9001 and ISO/TS 16949. For AKAFLEX KCL HT, testing is performed on the master reels according to the methods of IPC-TM 650. The test results are evaluated in accordance with IPC-4204/2. The AKAFLEX KCL HT types also have UL 94V-0 recognition.

Certified according to ISO 9001, ISO/TS 16949 and UL 94V-0

Availability of AKAFLEX® KCL HT

- ✓ **Standard reel width:**
610 mm, 500 mm or 305 mm;
other widths on request
- ✓ **Standard reel length:**
100 m;
other lengths on request
- ✓ **Format:**
As requested by the customer
- ✓ **Packaging:**
Reels suspended in robust corrugated-cardboard cartons
- ✓ **Standard cores:**
Inside diameter 76 mm
- ✓ **Certificate:**
Test certificate according to EN 10 204 - 2.2
